

Environmental Policy

At **Nexeo Plastics**, we are committed to minimizing our environmental impact and promoting sustainability throughout our operations. We recognize that environmental responsibility is a critical part of our business and an essential component of our corporate social responsibility. Our environmental policy outlines our mission and commitment to achieving the highest environmental standards in all aspects of our business.

Our Mission

Our mission is to conduct our operations in a manner that protects the environment, while striving to meet the needs of our customers and stakeholders.

Our Commitment

- We will comply with all relevant environmental legislation and regulations, as well as any other applicable requirements.
- We will continually work to identify and minimize the environmental impact of our operations, products, and services by monitoring our environmental performance and setting targets for improvement.
- We will integrate environmental considerations into our business decision-making processes.
- We will promote recycling and the responsible use of resources throughout our supply chain, while working with our suppliers to improve their environmental practices.
- We will encourage our employees, customers, and stakeholders to engage with and support our environmental initiatives.
- We will continue to develop and implement environmentally sustainable products and services.

Our Objectives

- Eliminate the distribution of environmentally harmful products.
- Reduce greenhouse gas emissions from our operations (including transportation) by 50% by 2030, our baseline year.
- Implement environmentally sustainable practices reducing energy and water consumption and minimizing waste.
- Educate and promote environmentally sustainable practices for our employees, customers, and stakeholders.
- We are committed to continual improvement in our environmental performance and to maintaining the highest standards of environmental responsibility throughout our operations. We expect all our employees, customers, and stakeholders to support this policy and work together to promote sustainability and protect our planet.

Updated January 2024

¹ This includes but is not limited to laws and regulations regarding energy use and greenhouse gas emissions; local pollution (e.g., air quality); waste and its recycling; water usage and wastewater in operations; biodiversity and forest protection; ecosystem conservation, restoration, and infrastructure development.
