

Structural Parts with ForTii® Ace

Automotive | Body | Structural Parts

Print Date: 2023-03-16

Benefits

- ForTii® Ace is the game changer in metal replacement. With a Tg of 150–160°C, this material offers linear and stable strength and stiffness at elevated temperatures. Excellent chemical resistance versus coolants (water/glycol), road salt, acid, mineral oil, transmission oil, etc.

Details

Up to 50% weight reduction in comparison with metal; Part integration and increased design freedom; Easy and robust processing; Potential applications: engine mount/bracket, transmission parts, structural oilpan, timing chain cover, actuator and EPS housing, etc.
